Institute

Public
Lecture
Series 2023

MOME Architecture Institute's Public Lecture Series welcomes prominent Hungarian and International Architects, Designers, and Thinkers to present and discuss their work within the built environment.

The Spring 2023 series titled "Architectural Matters" features a diversity of lecturers whose work focuses on the materialization of forward-thinking concepts. The wide range of expertise creates an opportunity for discussion and reflection on the state of creating our cities of tomorrow.

All lectures begin at 18:00 and are free to attend and open to the public, unless otherwise noted. Please visit facebook.com/MomeEpiteszet/ for more information.

Az előadásokat a MÉK akkreditálja, továbbképzési pontok igényelhetők. További információk: epitesz@mome.hu
